Re: Community Project Funding Request, FY 2024

Dear Congressman Panetta,

I write in Support of the Cambria Community Healthcare District's application for Community Project Funding for Fiscal Year 2024. An inspection of the Cambria Community Healthcare District's facility on Main Street in Cambria was conducted by the Cambria Community Services District Fire Inspector, Johnathan Gibson on December 8, 2022. A two-page list of violations included structural, electrical and plumbing deficiencies.

The District's budget for the 2022/23 fiscal year envisioned approval of Bond Measure G-22 on the November 2022 ballot which would have funded the replacement of its 65-year-old facility and correction of all these deficiencies. The Measure did not receive the required 2/3 voter majority approval. As a result, the District's existing budget is unable to absorb the cost of these repairs and modifications without finding another source of funds. The current estimate exceeds \$1 million and requires swift funding.

As District Supervisor I am well aware of the vital first response service the Cambria Community Healthcare District provides over 7,000 residents of a 300+ square mile area in San Luis Obispo county's North Coast. I strongly support the District's efforts to obtain emergency funding.

Thank you for your consideration.

BRUCE GIBSON  
Supervisor, District Two  
San Luis Obispo County
